

Keep Your Tools Sharp

Recently there came into the hands of the writer of this column a copy of a circular letter addressed by a landowner to the fifty odd tenant farmers on his more than 25,000 acres of land in Western Canada. This little circular contained one or two paragraphs which deserve much wider circulation than merely the limited area it covers. The decision of the man who wrote it caused my attention to a disc he was sharpening, and this in substance is what he said: "The farmer who owns this disc has had it for fifteen years and this is the first time it has ever been sharpened. I told him he said, 'That is not the way to sharpen a disc, you are sharpening the back of it. You have been dragging this old disc around for years and it has been only a roller going over your land. You are as dull in your head as this old disc.' That blacksmith was right. There are two kinds of farmers, dull and sharp. One has brains, the other dull; one thinks, the other does not; dull seethes, dull does not saws, dull axes, etc., the other plans, builds and machinery that is in perfect condition. One succeeds, the other fails."

How many farmers have set to realize the importance of planning the seasons in the above manner? How many are today in the blacksmith shop, or in the sawmill, and other misfortunes upon everything, but their own shortsightedness, carelessness, or deliberate neglect? The farmer who has a poor crop on account of hail, or frost, conditions over which he has no control, deserves our sympathy, but the farmer who has a poor crop while his neighbor's is a great crop, is simply a shabby farmer and is entitled to sympathy from anyone.

The highly organized and efficiently managed factories of the lumber and timber industry give to the world the best and most durable second-hand tools. In the selection of the implements we use, we often go to the blacksmith shop, and when a planer or plane, or cutting tools of any kind begin to get dull, or a sick appears, they are at once replaced by a perfect tool, while the old one is sent to be sharpened. The time taken in making the change, and the expense involved in re-arranging the tools in the workshop has been turned to account. Not only is more work can be done in a given time, but sharp tools can do more work than dull ones, consequently the workman is making larger profits for his employer and doing so with less worry and strain to himself. Keeping tools sharp means increased efficiency and greater profits.

The tools of the lumber and timber industry are unique and amazing great wealth at the expense of the rollers of the soil, but many of the time and labor saving devices employed by manufacturers can and should be adopted by farmers. The use of these tools will bring in little savings and also the steady improvement in the keeping and use of tools, machinery and in proper shape to do the work on which they are intended.

A farmer to succeed in Western Canada today needs to be not only careful and industrious, but intelligent and up-to-date in all his work. He must be a good worker, and a good husband, and a good citizen to be dull; he must be sharp if he is to succeed. He must be sharp mentally; that is, he should to the best of his ability keep abreast of the times and keep himself informed as to the best methods to employ in his farming operations. He must be a good husband, and a good citizen to be dull; he must know his trade, and in proper shape to do the work on which they are intended.

It has been demonstrated within the past two or three years that the adoption of the right tools and methods, the right knowledge and the adoption of the right tools and methods. If farmers and agricultural authorities would tackle the enormous waste problem in the same energetic and efficient way, it would not take new seasons to pretty well settle the question of the cost of production, and the cost of living, hundreds of thousands. If not millions of dollars, out of the pockets of Western farmers. And sloppy plowing, bad disease, leaving ridges here and low places there, partly caused by using dull tools, is to be considerable expense to the grower, and to the consumer.

The good farmer keeps his tools sharp, clean, the efficient stonographer keeps his pencil sharp, and her typewriter well cleaned and oiled; the careful mechanic keeps his car in constant repair, especially the engine parts and the gears. The farmer, in order to obtain the results from his labor in which he is entitled, must likewise keep all his equipment, both material and material, sharp and clean.

A STUDY OF OLD AGE

It is always interesting and reveals the fact that the blood is usually thin and lacking in the amount and quality of young men's blood. If you want to fill your blood with the fire of youth, build up your strength, take your medicine, and take Dr. Williams' Pink Pills. This wonderful medicine is a great system regulator. Keep the bowels in good condition, kidneys, the heart, lungs, liver, and the rest of Dr. Hamilton's Pills is recommended. 25¢ at all dealers or The Cataractozine Co., Montreal.

Courteous Discretion

Judge Elbert H. Gary, when questioned by reporters recently concerning a White House conference, refused to give any information either in court or in publication.

"Such information should come only from the President," he said, "and it would not be courteous for me to say anything."

"Is it a question of being courteous or of being discreet?" one of the newspaper men asked.

The Judge passed but a moment and then countered with a thrust that ended the interview:

"It is always discreet to be courteous." —From the Pittsburgh Leader.

Corns, Warts, Bumps + - + Painlessly Removed

Don't limp any longer, don't suffer another hour from corns. The oldest remedy for the heel and the one that for forty years has proved a true success will fit out your corns in a hurry. Patman's Painless Corn and Wart Extract is the one remedy to use. "It's free a substitute, the cure everywhere."

About Advertising

One step won't take you very far. You've got to keep on walking; One word won't tell folks who you are. You've got to keep on talking; One inch won't make you very tall; You've got to keep on growing; One little ad won't do it all.

You've got to keep them going.

Flight Across Pole Has Been Postponed

Air Expedition Abandoned on Account of Bad Weather

Captain Roald Amundsen has abandoned his attempt to reach Point Barrow in the gas boat Maule his exploration ship, and has transferred to the schooner Holmes, according to a wireless message received at Nome, Alaska.

Transferring to the Holmes with Captain Amundsen were Lieutenant Oskar Omdal, and another man whose name was not given. It is understood, however, that the plan to fly across the North Pole has been abandoned until next year. Lieutenant E. G. Ellington, of Vancouver, who was to have piloted the airplane on the polar flight, is expected to return.

The Mand will proceed to Point Hope, on the Arctic Ocean, north of Seward Peninsula. The Holmes will go to Point Barrow. Heavy ice caused the transfer, and bad weather led to delay of the airplane flight.

May Commence Channel Tunnel

Actual work on the construction of a tunnel under the English Channel between France and England will begin soon, as the result of the invention of a rapid boring device and the French movement to utilize German labor and machinery on the project in lieu of cash reparations. Statements to this effect were made at the meeting of the Channel Tunnel Company, which was founded in 1870.

Mitter's Worm Powders are a popular relief from the attacks of worms in children. They are powerful in their action and, while leaving nothing to be desired as a worm exterminator, they are an invigorating medicine upon the system, removing fever, biliousness, loss of appetite, sleeplessness and other ailments that follow disorders caused by worms in the stomach and bowels.

Fruit Crop Prospects

An official of the Fruit Branch of the Dominion Department of Agriculture states that the fruit crop of Ontario might be classed this year as about 100 per cent. He expresses the opinion that not only would the crop of apples be a heavy one all over, but the apples were growing to a large size.

For Scalds or Burns

Dr. Thomas' Eclectic Oil is a standard remedy on the prompt treatment of scalds and burns. Its healing power quickly removes the pain and aids a speedy recovery from the scalds and burns upon the system, reducing fever, biliousness, loss of appetite, sleeplessness and other ailments that follow disorders caused by worms in the stomach and bowels.

Discovery Made That Dry Wood Is Stronger Than When It Is Green

It is only in recent years that the properties of wood have been studied scientifically. In encouraging such studies, Canada has been one of the foremost countries in the world and the results are proving of the utmost value. Many cherished ideas about wood have had to be dismissed, however, and the practical woodworker is having his eyes opened concerning the material which he has been handling for years. As an instance, may be cited the belief that green or wet wood is tougher than dry wood. This belief is based upon the fact that dry wood breaks rather than bends, and green wood bends considerably before it breaks. Thous- ands of tests made by the Forest Products Laboratories of Canada, Forestry Branch, Department of the Interior, show that, although dry wood may refuse to bend as much as green wood, yet it is not necessarily true that the wood necessary to break the latter. This is only one general conclusion obtained from such tests, and as the laboratories make hundreds of trials of each of a dozen kinds of tests on each Canadian wood, it will be seen that a host of interesting facts about wood will be available in the near future.

Labor in India is mostly unskilled, though Indian laborers have remarkable powers of adaptation, and they can easily be trained to do the most difficult operations requiring a high degree of intelligence.

NEWS FROM THE OTHER SIDE

Interesting Letter From Woman in South Africa

Johannesburg, South Africa—"I took Lydia E. Pinkham's Vegetable Compound and for breakfast and dinner I felt run down. I tried a lot of medicines before I tried yours. One day I was standing on my steps when a man came to my door and called one of your little books. I read the book and the next day my husband went to the chemist's and bought me Lydia E. Pinkham's Vegetable Compound. I have taken the medicine ever since and I feel quite strong and well again as I am used to. I have written to my sister and told her all about the wonders it has done for me, and I am quite willing for you to use my name as I am sure it will help you for what it has done for me." —Miss W. F. Rust, 128 6th Ave., Mayfair, Johannesburg, South Africa.

It is this sort of praise of Lydia E. Pinkham's Vegetable Compound, given by letter on verba, one woman to another, that causes me to continue and the splendid results to you.

Lydia E. Pinkham's Vegetable Compound is a medicine for women's ailments, and is used by many thousands of other women, should cause you to give it a trial now. It can be safely taken by any woman—young or old.

Australia's Cotton

Expert agricultural evidence given before the Australian Federal Parliamentary Committee inquiring into the proposal to construct a railway to connect the northern territory with the south to the effect that the territory is capable of producing enough cotton to supply the world's needs twice over, that irrigation was unnecessary and that colored labor was not required for the purpose.

"COLD IN THE HEAD"

is an acute attack of Nasal Catarrh, or a cold in the head. It is a disease in the head, will find that the use of HALL'S CATARRH MEDICINE will bring up the head and cure the cold.

Repeated attacks of Acute Catarrh may lead to HALL'S CATARRH MEDICINE is rapidly and easily absorbed by the system, thus reducing the inflammation and assisting Nature in expelling the cold.

Japan Adopts Western Games

Japan has adopted baseball and tennis as national sports. Vacant lots and wide streets are nurseries on which swarms of coming stars of the diamond and American colleges that send teams to Nippon have to choose their best players in order to have a chance of winning games. The Japanese are rapidly becoming expert with the tennis racket, and no longer do foreigners visiting in Japan carry on most of the prizes in tournaments. The women are taking up the game with zest.—From the London Monitor.

ASPIRIN

UNLESS you see the name "Bayer" on tablets, you are not getting Aspirin at all.

Genuine

Accept only an "unbroken package" of "Bayer Tablets of Aspirin," which contains directions and dose worked out by physicians during 22 years and proved safe by millions for

Colds Headache Rheumatism
Toothache Neuralgia Nervitis
Earache Lumbago Pain, Pain

"Bayer" "Bayer" boxes of 24 tablets—Also bottles of 24 and 100—Druggists.
"Bayer" is the trade mark registered in Canada of Bayer Manufacture of Monastic Extracts of Salicin (Bayer). While it is well known that Aspirin means Bayer, many persons are under the impression that all aspirin is Bayer. Aspirin tablets will be stamped with their general trade mark, the "Bayer" logo.

Increase in Weight and Measure

Standard British Yard Grows Due to Air-Bat Vibrations

The standard British yard, which has been kept for 30 years in a sealed box under a staircase in the House of Commons, has grown one-tenths of an inch longer than the imperial standard kept in the board of trade, due it is thought to vibrations resulting from air raids. Investigation further showed that the standard British pound, made of platinum and kept in the archives, has increased two and eighty six-hundredths of a grain in weight.

Sciatica's Pain Relieved Quickly By Nervilene

In inducing quick relief to the sciatic sufferer, the oldest remedy is the ancient application of Nervilene. That sound has proved its success. Now this new device has come to you right in. The irritated nerves are soothed and the pain goes away. Wherever there is Rheumatism, Neuralgia, Lumbar or Muscular Pain, the quickest relief always comes from the use of Nervilene. 25¢ at all dealers.

Not All Clear Gain

A Yankee humorist says: "Forrest, who had married a widow worth ten thousand dollars, was receiving contributions."

"Well, Seth," remarked a neighbor, "I hear you are ten thousand dollars to the good."

"Not quite," replied the far-mer morally. "Not quite, that is to say, it cost two dollars for the license."

—All Clear Gain.

Immigration

Department Active

More Work Being Done Than Generally Known, Says R. J. C. Stead

Winnipeg—Selborne, it ever had the assistance of the Union of Canadian Municipalities been invoked more extensively, or exercised with greater success, than during the past year, according to the report submitted by D. A. Shulby, Secretary Treasurer, at the convention here.

Reviewing the union's official activities during the year, Mr. Shulby mentioned the application of the Bell Telephone Company for increased rates, the problem created by the flow of immigration to the cities, where there was not work for all, and the reduction in the check tax, for which he gave the union credit, involving a sum of \$100,000, and a fund of hundreds of thousands of dollars.

The financial position of the union was said to be most satisfactory.

Invitations for the 1922 convention have been received from Halifax, Windsor, Port William, Regina and Edmonton.

Taking up the cudgels in defense of the Department of Immigration and Colonization, R. J. C. Stead, Director of Publicity for the department, declared that more was being done to bring immigrants to Canada than many Canadians appeared to believe.

"I have been asked," said Mr. Stead, "when the Government proposes to resume its immigration activities, and at the very moment a question was asked, 'Advertise more,' we are appearing in no less than one thousand newspapers in the United States."

Mr. Stead said there were many things about campaigns of this kind which could not be shouted from the house tops, but, because department officials failed to shout, it must not be supposed that the department was inactive.

Number Of Prisoners Increasing

Prisoners Increasing

Alleged that About 80 Per Cent. of Inmates of Penitentiaries Are Foreigners

Winnipeg—Brigadier General W. H. Hughes, Superintendent of Penitentiaries, addressed the Union of Canadian Municipalities convention here on the Canadian system of penitentiaries and how the municipalities may assist them. The number of inmates in the Canadian institutions had more than doubled since 1913, he said, but gave no explanation for this fact.

General Hughes strongly advocated the segregation of young "first timers" and youths who were sent to the penitentiaries from the "old timers" and "troublemakers" and older offenders.

The speaker suggested that the municipalities could help in the work of reformation of penitentiary inmates by supplying equipment, not only for inmates who left the penitentiaries, but also for those who still remained in those institutions, by giving orders for goods to the penitentiaries.

About 80 per cent. of the inmates in Canadian penitentiaries were people of foreign origin, that is, non-British subjects. General Hughes said, "This applied particularly to the penitentiaries in the western provinces."

League Wants Information

Has Sent Out Circular Inquiring Into Russian Situation

Geneva.—The League of Nations has issued a circular to members of the league requesting them to forward to the secretary all information they possess concerning the situation in Russia as regards agriculture, the movement of populations and conditions of life in towns and country districts. When the information is collected a committee of experts will be formed to study the document and establish the correlation between the situation in Russia and the reconstruction of Europe.

Commando Empire Exhibit

Toronto—Declaring that the ready for Britain's post was its lies in developing inter-empire trade, Lord Morris, former Premier of Newfoundland, but now a resident of London, England, who is a visitor to Toronto, expressed the opinion that the British Empire Exhibition to be held in 1924 will be a powerful agent to that end.

To Bring British Coal

Toronto—Within the next week or ten days, 9,000 tons of British anthracite coal, at least, will be on its way across the Atlantic in Canadian Government Merchant Marine ships.

Increase In Immigration

Figures for May Show Over 11,000 New Arrivals in Dominion

Ottawa.—An increase over the April figures is shown in immigration records for May, when 11,189 persons arrived in Canada, as against 6,598 during the previous month. Of the number, 8,233 came from ocean ports and 2,866 from the United States. On May 18, 1921, 11,113 persons were admitted. Of the 11,189 persons admitted in May last, 1,897 were adult males, 528 adult females and 2,241 children under 14 years.

BURNSIDE

Our school opens on September 5th.

Mr. and Mrs. Lyman Gray of Drumheller are spending a couple of weeks with Mr. and Mrs. Tom Firelay.

A great many attended the Didsbury Fair last Friday. The exhibits were the best in year and the crowd was fair considering the busy season.

Sam Elliott, Mr. and Mrs. Noah Eckel and son and Mrs. Tony Habenshield took in the Barnum and Bailey and Ringling Bros. circus in Calgary last week.

There was no service in the Burnsides school on Sunday as the painters are busy improving it both outside and in.

Miss Claribel Miller and brother Charlie were week end visitors with Mr. and Mrs. John Greer.

Big Oil Refinery for Calgary

Calgary is all "heated" up about the announcement made last week that the Imperial Oil Company intend starting the construction of a \$2,500,000 oil refining plant in that city in the very near future if the citizens pass the necessary bylaw. The construction of the plant will take from 300 to 500 men and will take about five months to erect. After the plant is started from 200 to 250 skilled men will be employed and the monthly wage bill will run close to \$50,000 a month.

May Reduce Price of Gasoline

It is claimed that when this

HAYS & CO., LIMITED DAIRY FARM NEWS

Do you know that we are prepared to give the family history of nearly all our dairy cattle?

When a heifer calf is born a tag is put on its ear bearing the date of its birth, identification number, also the identification number of the Dame, and the initials of the Sire.

The monthly and yearly production of all cows and heifers in our commercial barn is in our possession, and may be verified at Ottawa.

Do you know that not so very long ago, a herd of grade cows was sold in Colorado at prices running up to \$400.00. Their family history and production were known.

Among the seven head we offered last week, is a heifer 20 months of age. She weighs 950 lbs. Her mother at the age of 3 years in 360 days produced 12,840 lbs. of milk; 381 lbs. of fat. And the mother of another one was sold last December for \$200.00 to a British Columbia buyer. She had produced in 258 days, 12,592 lbs. of milk, 350 lbs. of fat, and was still producing 49 lbs. of milk per day at the time she was sold.

Remember that our records are all made on twice per day milking, and moderate feeding.

If some of the cows we are offering are not sold, we will give the record of their production in next week's issue of the Pioneer.

refinery is completed and running that there will be at least a reduction of three cents per gallon on gasoline and some reduction on coal oil. Machine oils will also likely be reduced in price.

Grade oil from Montana and Wyoming will be shipped in to the refinery and the oil produced in the Alberta fields will also be taken care of.

QUESTIONS AND ANSWERS ON PRAIRIE FORESTRY

By the Canadian Forestry Association

Ques.—We are paying \$8 to \$10 a cord for firewood here.

Would it be possible to grow our own wood on the farm?

Ans.—Yes. The Dominion Forestry Branch Nursery Station at Indian Head have found they can grow eighteen cords of fair firewood in eight years from Russian Poplar cuttings. This is a little over two cords per acre per year. This at \$8 a cord would give you \$16 worth of wood for every year your trees would be growing. There's a lot of wheat land that has not paid as well as this the last few years.

Ques.—How late in the summer should I irrigate my trees?

Ans.—Not later than the end of July.

Ques.—When is the best time to trim a Caragana Hedge?

Ans.—Anytime, three or four times during the summer if you like.

Ques.—What are those big green caterpillars eating the leaves off the tops of Russian Poplar Cottonwoods and Ash in my plantations, and what should I do for them?

Ans.—These are the larvae of the Sphinx Moth and their attack is rarely serious enough to require spraying. Their size renders them very conspicuous and they are readily picked off by the birds. Spraying with Arsenate of Lead powder at the rate of a tablespoonful to two gallons of water will effectively clear them.

Ques.—I have been advised not to clear the brushwood under the trees at my summer cottage. What should I do?

Ans.—Leave the underbrush alone. This is nature's way of keeping the soil moist and in good condition for your taller trees. If you clear off the brush the trees will die in a few years.

Ques.—My Tartarian Hornbeam suckle are being eaten up by a bluish green beetle about half an inch long. What are they and what can be done for them?

Ans.—These appear to be a lesser variety of the Blister Beetle and may be destroyed by spraying with half a tablespoonful of Arsenate of Lead in the powder form to a gallon of water. The Arsenate is the same as is being used for killing grasshoppers.

LOST—One pinto brood mare and one year old colt, two bay two year olds. All branded B on right thigh. HAENER BROS., Elkton P.O.

To Holders of Five Year 5½ per cent Canada's Victory Bonds

Issued in 1917 and Maturing 1st December, 1922.

CONVERSION

PROPOSALS

THE MINISTER OF FINANCE offers to holders of these bonds who desire to continue their investment in Dominion of Canada securities the privilege of exchanging the maturing bonds for new bonds bearing 5½ per cent interest, payable half yearly, of either of the following classes:

- (a) Five year bonds, dated 1st November, 1922, to mature 1st November, 1927.
- (b) Ten year bonds, dated 1st November, 1922, to mature 1st November, 1932.

While the maturing bonds will carry interest to 1st December, 1922, the new bonds will commence to earn interest from 1st November, 1922, GIVING A BONUS OF A FULL MONTH'S INTEREST TO THOSE AVAILING THEMSELVES OF THE CONVERSION PRIVILEGE.

This offer is made to holders of the maturing bonds and is not open to other investors. The bonds to be issued under this proposal will be substantially of the same character as those which are maturing, except that the exemption from taxation does not apply to the new issue.

Holders of the maturing bonds who wish to avail themselves of this conversion privilege should take their bonds AS EARLY AS POSSIBLE, BUT NOT LATER THAN SEPTEMBER 30th, to a Branch of any Chartered Bank in Canada and receive in exchange an official receipt for the bonds surrendered, containing an undertaking to deliver the corresponding bonds of the new issue.

Holders of maturing fully registered bonds, interest payable by cheque from Ottawa, will receive their December 1 interest cheque as usual. Holders of coupon bonds will detach and retain the last unmatured coupon before surrendering the bond itself for conversion purposes.

The surrendered bonds will be forwarded by banks to the Minister of Finance at Ottawa, where they will be exchanged for bonds of the new issue in fully registered or coupon registered or bearer form, carrying interest payable 1st May and 1st November of each year of the duration of the loan, the first interest payment accruing and payable 1st May, 1923. Bonds of the new issue will be sent to the banks for delivery immediately after the receipt of the surrendered bonds.

The bonds of the maturing issue which are not converted under this proposal will be paid off in cash on the 1st December, 1922.

W. S. FIELDING,
Minister of Finance.

Dated at Ottawa, 8th August, 1922.

The Didsbury Pioneer

Member of the Canadian Weekly Newspapers' Association.

H. E. Osmond, Editor & Prop.

F. H. Osmond, Ass't. Editor

Subscription: \$2.00 per year

U. S. Points: \$2.50 per year

WEDNESDAY, AUGUST 23rd.

In offering to renew the five and a-half per cent. Canadian Government bonds maturing December 1st at the same rate of interest as is carried by the maturing bonds, and allowing a bonus of one month's interest, the Minister of Finance is making a material concession to the Canadian investor, as this rate is higher than was paid on the recent Canadian loan in New York. The high class of the security, which is the very best that can be offered in Canada and the liberal rate of interest should lead to large investments in these Dominion bonds. Attention is directed to the official advertisement giving details.

If the Irish people do not rise in their might and dig out these followers of De Valera and punish them severely for their despicable crimes the world will condemn them.

DIDSURY ANNUAL FAIR

Continued from page 1

winning is pretty good and exhibitors will have to work hard to beat Mr. Frasch in next season's showing.

The Fair was patronized by one woman from Calgary who should have been presented with the finest premium the Society could give for the best exhibit of colossal gall shown on the grounds. She had some pieces of blue ribbon and started in to play a great hold-up game. Her method of procedure would be to approach a man, pin a piece of blue ribbon to the lapel of his coat and sting him for a quarter. When she was finally brought to bay by the Fair authorities she stated to one man that as she had paid her fare up from Calgary and paid her entrance to the grounds that she was entitled to get her money back by this method. It's a wonder she did not try to make Messers. Wrigglesworth and Bersch, the Secretary and Manager, give her a special money grant to carry on.

Winners In Boys' and Girls' Races

The following is the list of winners in the children's races held at the Fair.

Boys

100 Yards, 11 to 16 years—A. Lutte, C. Morinher, T. Reed

100 Yards, 11 to 13 years—Victor Befus, Russell Vogel, R. Brood

75 Yards 8 to 10 years—Leonard Thompson, Gordon Fostiger, J. Tuggele

50 Yards, 5 to 7 years—Leonard Larsen, E. Klein, J. Pearson

Girls

75 Yards, 11 to 16 years—Ethel Tittsworth, Margaret Dingleford, Ethel Gatenem

75 Yards, 11 to 13 years—Tenni Leean, Florence O'Brien, Henna Sande

75 Yards, 8 to 10 years—Dorothy Tuggele, Lulu Tittsworth, Ethna Folkman

50 Yards, 5 to 7 years—Jean Stringer, Jessie McCoy, Velma Belcham

A large number of people throughout the district attended the big circus held at Calgary last week.

Railway News

Vancouver—Vance Low, manager

Mr. G. G. Hall, Vancouver, C. P. R., said his crop was good in

the nature of an ordinary inspection and that the company had undertaken in this connection with the new pier work will proceed

as soon as possible.

As far as the crops go, India from his

trip there, the crops are good, his

report recurred. There will be a

big crop this year, and the company

was making its usual preparations

to meet its share of the business

conditions.

Asked if the new harvest and readjustment of freight rates would mean that this company would carry larger quantities of grain here this fall, Mr. Hall said that it was a

matter which was to be seen in Canadian

ports, he had no control.

"It all rests with the owner of the

grain," he said. "We are prepared

to haul it either East or West, just

as he directs."

Furman periodically reviews the

story that the Canadian Pacific is

in British Columbia.

In regard to this Mr. Hall stated, as he has on

former visits here, that the company

was conducting experiments with

a view to the construction of a

new line of power lines for

electrification. The impression he gave was that if the plan

is feasible by its experts

and the company can get the

proceed with the work, in any event

it is liable to be a considerable

time distant.

The vice-president was accom-

panied through the British Columbia

division by Mr. P. W. Peters, general

superintendent. He was met on

arrival here by leading officials of

the company and several personal friends.

Assiniboia, Alberta.—A further

programme for the improvement of lines

of the Canadian Pacific in this

area was announced by Mr. Coleman,

vice-president in charge of Western

Lines, who is on his way west.

The line will run from the south

the railway with one hundred round

steel of the double track between

Lignite and Kenora.

A considerable number of bridges

will be repaired with more perman-

ent structures.

With respect to work on new

branch lines it was announced that

the existing one on the Waypoint

line will be extended 10 miles

from Russell east. The first fifty miles of the

Lignite northern line will be fully

equipped for traffic and the grading

will be finished on the line from

Coors east. In this connection

Mr. Coleman said: "We had

hoped to have the larger pro-

jects completed by the end of the year

but until the effect of the freight

rate reductions just announced in the

revenues of the railway companies

can be accurately determined, it is

obvious that an ambitious programme

is out of the question."

Port Hope.—The C. P. R. Port

Hope bridge is to be painted soon

and an interest has been taken

how long it will require to paint it

and how much paint will be used on

the work. There are, at present

about one thousand feet of bridge

that are to be painted.

Thirty Years' Successful Farming

Remarkable Achievement Of a Pioneer Manitoba Farmer

In a period when the profession of farming is more or less stagnant, when the tendency in so many countries is from the rural districts to the cities and industrial centres, and the ostensible complaint is that the arduous of depictions of an agricultural life are not commensurate with its compensation, it is consoling to read of a satisfied farmer of thirty years' standing, one of the continent's premier agriculturists, celebrating his seventieth birthday in the tranquillity of old country farmland. After a year's experience as hired man with a farm in the district, he rented a farm, which after five years, he purchased and still occupies.

At a time when everyone was engrossed in wheat he concentrated so much on grains as on vegetables. His first local exhibit was three prizes, and in his first ten years of farming he made forty entries and secured 132 awards. From 1895 to 1900 he gave 100 entries, and while he placed in making the possibilities of Western Canada known to the world.

The record of Mr. Larcombe's thirty years of farming is almost phenomenal. In that period, with the products of his Manitoba farm, he has carried off no less than three thousand prizes, including the world's championship for wheat at the Prairies International Fair in 1917, and the sweepstakes for the best individual farmer's exhibit as well as the sweepstakes for wheat in the dry farming section at the World's Soil Products Exhibition in Kansas in 1918. His Canadian successes constitute an aggregate which gives him an average over his farming years of one hundred prizes per year.

Born in a little Devon village and for ten years following the pursuit of a garden, Mr. Larcombe's experience forms a further addition to the examples of outstanding success

of a man who has pursued his studies in agriculture, and particularly for himself he has pointed the way to thousands of his fellow countrymen.

Received an invitation to serve on the royal commission in connection with the conference of heads.

Drought in British Columbia this year will compel some cattlemen to sacrifice half their stock.

The King has approved the appointment of Sir Haycourt Butter to succeed Sir Reginald Chadduck as Lieutenant-Governor of Burma.

Captain John Ross, 73 years old, who plied the Maid of the Mist steamer below Niagara Falls for 33 years, died recently.

The Soviet Government announced that owing to the excellent crop prospects, the foreign trade department is instructing its bureaus abroad to cease buying flour and sugar.

Ho Lom, 10th Regiment, Calgary, was the high westerner in the Corporation of the City of London Competition at the Ontario Rifle Association meeting, Toronto, with a score of 104.

A delegation of the Great War Veterans' Association, headed by Major H. R. B. Beland, Minister of Soldiers' Civil Rehabilitation and Public Health, and complained to him of the inefficiency of certain departments dealing with imperial matters.

BEAUTY OF THE SKIN

It is the natural desire of every woman, as it is of every man, to have a smooth, clear, Class Chianti. Purple, blackheads, acne, and all the other signs of irritation and excessiveness disappear, and the skin is left soft, smooth and velvety. All these qualities are to be found in Dr. Chase's Ointment.

The Strike Problem

Richard Spillane, in the Philadelphia Public Ledger

Whether employer or employed sin most in the horrors visited upon the public in the form of strikes is not the question. Serious are results, but so are all the horrors that the strike is removed. How to do that is a problem. But the problem, however difficult, is not insoluble. A little of the genius that transformed the world from savagery to industrialism, mixed with common sense and the Golden Rule, surely would find the way.

KEEP CHILDREN WELL
DURING HOT WEATHER

Every mother knows how fatal the hot summer months are to small children. Cholera, infantum, diarrhoea, dysentery, and other diseases are the at this time and often a precious little life is lost after only a few hours illness. The mother who keeps Baby's Own Tablets in the house tests the water, the food, the clothes, the lets prevent stomach and bowel troubles, as if the trouble comes suddenly as it generally does—the Tablets will bring it to a standstill, said through—“The tablets are sold by mail or at 25 cents a box from Dr. Williams' Medicine Co., Brooklyn, O.

Religious Freedom Under Bolshevikism

The baptism of children will not be allowed in Russia in the future. The Supreme Council of the Church, which is under Soviet control, is elaborating a new church law dealing with baptism. In this age of baptism is fixed at 18, and the consent of the person concerned must be obtained in writing and filed with the authorities.

Recognized as a leading specific for the removal of skin worms, Mother Grace's Warm External Ointment has proved a boon to suffering children everywhere. It sold fantastically.

This time, warlike, intent to the Spanish, prepared to descend on the heads of their enemies killed in battle. To lessen the weight of these chaste robes the warriors all a secret process painted all the bone and embalmed the head.

The Inca, warrior, intent to the Spanish, prepared to descend on the heads of their enemies killed in battle.

To lessen the weight of these chaste robes the warriors all a secret process painted all the bone and embalmed the head.

She Has Raised
A Family Of Ten

DR. FOWLER'S
EXTRACT OF
WILD STRAWBERRY
NEVER FAILED HER

Mrs. Ervin W. Sudis, East Waterville, N.B., writes: "I have raised a family of ten children and have always used Dr. Fowler's Extract of Wild Strawberries, never having a complaint, and it has never failed."

Four years ago, when the cholera was about, some of my neighbors called in Dr. Fowler's Extract of Wild Strawberries, and I told them about Dr. Fowler's, and after taking it, they were soon again. I also used it for two of my sons, who were also thrown into the sea. Both these were saved while the second officer was drowned in full sight of the ship.

Only the uninitiated realize the agony of burns. The knowing ones apply Holloway's Corn Remover and get relief.

Napoleon held the view that the shortest men are often the boldest, and by way of demonstrating this belief he nearly always selected small men for the biggest tasks.

Minard's Liniment for Burns, etc.

Dainty and Comfortable Are
The New Summer Frocks

Here is shown a very simple little frock for afternoon wear which is very dainty and cool-looking. It is of white crepe de chine embossed in white gold, and in a very simple design which does not make the dress too heavy as is often the case with beaded gowns.

A Gloomy Forecast

U.S. Geologist Expects Destruction in
Many Continents

Within 30 days Southern Europe, Northern Africa and the whole of Asia will be destroyed by earthquakes, and the residents of those countries will all be killed.

This is the latest prediction of Dr. M. A. Nobles, a physician and geologist, who has studied volcanic disturbances since his graduation from Syracuse University in 1881. The western section of the United States, beyond the Rocky Mountains, is also on Dr. Nobles' schedule to disappear. Canada is to remain on the map.

The eruption that will wipe out Europe will occur near Budapest, where there are at present 70 volcanoes, Dr. Nobles said.

It Bids Pain Begone.—When neuralgia attacks the nerves or human ills grip the body, the best of all treatments is the virtues of Dr. Thomas' Electric Oil. Well rubbed in it will still the pain and produce a sensation of ease and rest. A trial of it will establish facts in it.

Story Of Heroism

Officer Gave His Life That Seamen
Might Live

A thrilling story of heroism at sea was unfolded in Montreal when the master of the steamer Corinado brought his ship into port and reported the loss of his second officer, Angus J. Glasgow.

The officer was washed into the sea during a gale that struck the ship on August 4. Although unable to swim, he refused help and ordered the rescue boat to save two of the steamer's sailors who were also thrown into the sea. Both these were saved while the second officer was drowned in full sight of the ship.

Only the uninitiated realize the agony of burns. The knowing ones apply Holloway's Corn Remover and get relief.

Napoleon held the view that the shortest men are often the boldest, and by way of demonstrating this belief he nearly always selected small men for the biggest tasks.

Canadian Dollar Almost at Par

New York, August 15—The premium on Canadian exchange yesterday was reduced to 2-32 of 1 per cent, an extreme low record. The high point was 19-14 per cent, reached in December, 1920.

The approach to par is attributed to the purchase of Canadian securities in the U. S., the grain movement and a general reduction of Canadian imports over exports.

Ensilage Machinery

We Have It !

Massey-Harris Corn Binders and ensilage cutters are what you need. See them at our warehouse. We have several types of Ensilage Cutters, suitable for trench or wood silo.

AROUND THE TOWN

Mr. and Mrs. L. C. Coffey and two little daughters are visiting with Mrs. Coffey's parents, Mr. and Mrs. H. E. Osmund.

Mr. So Ho Joe, of the Canadian Cafe, returned this week from a sixteen months visit to China.

Mr. J. Boorman, manager of the local telephone exchange, has had a fine cinder tennis court made at the rear of the telephone office. The staff are to be congratulated on keeping the grounds in such fine shape.

Shool days, school days. Dear old golden rule days, start on Monday and the town will once more be filled with presence of the school children who have been scattered around on their holidays.

On Tuesday the 22nd inst. one of our citizens was brought up before J. E. Bender, J. P., charged with operating his automobile contrary to Town By-Law. He pleaded guilty and was fined \$5 and costs, and a half a pound.

Mr. Fred Moyle, cattle buyer for the U. F. A., stated last week that the fine rain that we have had some days ago had the effect of sending up the price of cattle from one cent to a cent.

Mr. Wm. Burgess, San Francisco, Calif., was visiting with his brother Mr. Sam Burgess for a few days last week, leaving on Sunday to visit relatives in Manitoba and Toronto and other points in Ontario before returning home via Chicago.

The Women's Institute are entertaining the grandparents of this district Saturday afternoon, September 2nd, in the school basement at 2.30. Miss MacMillan, Superintendent of Institutes, from Edmonton will be the speaker. A short program has also been arranged.

Schools open on Monday next. There will be two changes in the staff this year. Miss Beveridge of Calgary will take the place of Mr. M. Watts, and Miss C. Ballou of Onyx will fill Mr. W. Mueller's position. Mr. John Metzgar will act as janitor for the present.

T. Bradley has sold his interest in the Glenmore Dairy Co. to E. Clarke, for one year. Mr. Bradley is going to England. Mr. Clarke is the son of N. S. Clarke and has been looking after his father's dairy in Didsbury—Calgary Albertan.

Mr. A. Bothamley, piano tuner and player expert will be in town for a few days and is now doing special work as a member of Calgary Tuner's Association also National Association. All work guaranteed. Phone 12 Pioneer Office.

The many friends of Mr. W. G. Liesemer will be sorry to learn that he was taken suddenly ill last week and had to be taken to the Didsbury General Hospital to undergo an operation. He was a pretty sick man for a few days but we are glad to report is now on the road to recovery.

Mrs. Baker and daughter May, of Toronto, is visiting with her cousin Mr. J. A. McGhee for a few days. Mrs. Baker was a resident of this town several

years ago and will probably be remembered by people who lived here then.

The Carstairs baseball team continues unchecked in its meteorical flight. They have played off two games with Edmonton, winners of the north-

ern section, which were decisive victories for Carstairs the scores being 5-0 in the game at Carstairs and 3-0 at Edmonton.

They will now play home and home games with Rockyford in the finals for the championship of the province.
